

## DID YOU KNOW?

# Horatio's Garden and the NGS

Olivia Chapple / Andrew Crowley

In 2016 the National Gardens Scheme (NGS) is making Horatio's Garden one of its beneficiaries. "Horatio's Garden is a wonderful charity with an inspiring message," says George Plumtre, NGS chief executive. "It resonates directly with the new strategy that the NGS has been developing with its other beneficiary charities to demonstrate the benefits of gardens and gardening for individual and public health and well-being." The NGS donation (to be announced in March) will make a significant contribution towards the third Horatio's Garden at Stoke Mandeville Hospital.
